

September 22, 2005

Dear Michael,

We just wanted to thank you for the wonderful music at our wedding. You gave the party a wonderful atmosphere and your professionalism and discreteness were really great.

From the cocktail hour until the last dances you really created a wonderful crescendo of mood and energy. Many jazz fans came up to us and said that you played all of their favorites. You set a classic and festive tone during the cocktail hour which then juxtaposed nicely with the music during dinner and the dancing. The dinner music allowed people a chance to relax and eat and created a great transition into the dancing.

We and everyone enjoyed the great mix of dance music. You really did a great job in getting people of all ages dancing and getting the Italians and Americans to mix.

Thank you so much for making our wedding what it was. Your subtle presence and great selection of music really made the evening a real celebration. We had so much fun and everyone we talked to said it was an incredible evening and great music. Thanks!

We look forward to recommending you to other people and using you in the future.

Best,

Lucy + Francesco
